

MARCH 2022

Dear Supporter,

Our daughter just celebrated her 50th birthday. What a shock! She was just a 4-year-old kid when we arrived in Brazil, and now — with her youngest about to get into university — Kimi and Eduardo will be going through the empty nest experience.

As for us, we have had ups and downs. The dental surgeon is perplexed by the difficulty in finishing Diane's teeth. Unfortunately, Diane's teeth will not be done till 2023. We are praying, "Send us!" On the other hand, the gospel is going out and spreading His glory. Pray with us as the dentist is working on eight teeth! (See postscript below!)

Two years ago — just before the lockdown — the Lord gave me an opportunity to celebrate a wedding for two professionals who had become followers of our Lord. Many non-Christian friends came and were impacted by a very unusual wedding ceremony. The groom gave his testimony as to the transformation in his "gut" to the point where he renounced an ungodly life to be totally committed to the Lord. This testimony was so powerful that the groom's brother-in-law cried like a baby. Fast forward two years. The teenage son of the one impacted repented and came to the Lord. It was at least two years of self-searching to come to the cross of Christ as a committed follower of the King. Now this new creation is testifying to his friends in his school of an amazing grace he himself experienced. To God be the glory!

A lot more has happened — not only in Brazil but around the globe. Your prayers and support over a 45-plus year span of ministry is the reason for an increasing impact of Jesus and His kingdom. Thanks for your faithfulness.

Gratefully,

P.S. Urgent prayer request: Bad news ... on January 30, Diane's dentist fell down some stairs and broke his arm in three places. He was operated on that same day. They say it could possibly be three to four months before he can use his arm — if he will be able to use it. Please pray! Thank you!
